Paid Summer Research Experience for Undergraduate Students in Cell Manufacturing

The NSF Engineering Research Center for Cell Manufacturing Technologies (CMaT) announces its Research Experience for Undergraduates (REU) program for summer 2024. The REU program will fund undergraduate students to work in CMaT labs at Georgia Institute of Technology (GT), University of Georgia (UGA), University of Puerto Rico at Mayagüez (UPRM), and University of Wisconsin at Madison (UW).

What CMaT REU Offers:

- 10 weeks of hands-on research at GT, UGA, UPRM or UW
- \$6,000 stipend per student
- Housing, meal, and travel allowances
- Grad school prep, faculty mentoring, professional development, and social engagement with other students on campus
- Networking with partner REUs
- Multiple presentation opportunities at national conferences

Program Requirements:

- Must be 18 years or older and a U.S. citizen or permanent resident
- Must be currently enrolled in a science or engineering undergraduate program (biology, chemistry, physics, materials science, bioengineering, computer science, and related fields)
- Students from underrepresented minority groups, women, and individuals with disabilities are strongly encouraged to apply
